## Statement of Basis/Proposed Plan for Gunsite 218 Operable Unit (631-23G)

The United States Department of Energy (DOE) will release a Statement of Basis/Proposed Plan on February 11, 2010, describing the proposed remedial approach for the Gunsite 218 Operable Unit (OU) (631-23G) at the Savannah River Site (SRS). The South Carolina Department of Health and Environmental Control (SCDHEC) will also release a draft Resource Conservation and Recovery Act (RCRA) permit modification for the proposed remedial action for this unit. These documents will be available for public review and copying at the locations listed below. The public comment period is scheduled for February 11, 2010 to March 28, 2010.

The Statement of Basis/Proposed Plan was completed to meet the terms of the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA), a law governing the investigation and cleanup of waste units. DOE has worked with the United States Environmental Protection Agency-Region 4 (EPA) and the SCDHEC to ensure the remedial approach is consistent with all applicable environmental requirements.

DOE, EPA, and SCDHEC have reviewed the risks associated with the OU and have evaluated cleanup alternatives. No Action is the preferred alternative for the Gunsite 218 Operable Unit.

The Gunsite 218 OU was a satellite gunsite used as an anti-aircraft gun emplacement to protect the SRS facility, and is believed to have been dismantled in 1961. The remains identified at the Gunsite 218 OU include abandoned structures and disturbed land areas. No human health or ecological refined constituents of concern were identified for the Gunsite 218 OU. No mobile or highly toxic materials (principal threat source material) are associated with the Gunsite 218 OU. Also, there is no current or potential threat to public health, welfare, or the environment. Therefore, no remedial action is necessary at the Gunsite 218 OU. The revised CSM for the Gunsite 218 OU is presented in the Statement of Basis/Proposed Plan.

Comments on the Statement of Basis/Proposed Plan and the draft RCRA permit are requested by March 28, 2010. Upon completion of the public comment period, a Responsiveness Summary that addresses public comments will be prepared. The Responsiveness Summary will be made available with the Record of Decision and the final RCRA permit modification and will be sent to each person who submits comments.

Copies of the Statement of Basis/Proposed Plan are available in the administrative record. The administrative record is available in the information repositories listed below:

- DOE Public Reading Room at the Gregg-Graniteville Library at the University of South Carolina Aiken campus in Aiken, S.C.
- Thomas Cooper Library Government Documents Department at the University of South Carolina in Columbia, S.C.

Hard copies of the Statement of Basis/Proposed Plan are available at the following:

- Reese Library at Augusta State University in Augusta, GA.
- Asa H. Gordon Library at Savannah State University in Savannah, GA.

An electronic copy of the Statement of Basis/Proposed Plan is posted at the following address: <http://www.srs.gov/general/programs/soil/pub/pubinv.html>

Copies of the draft RCRA permit modification are available for review at SCDHEC during regular business hours, 8:30 a.m. to 5:00 p.m., Monday through Friday, except legal holidays, at the following locations:

SCDHEC  
Bureau of Land and Waste Management  
8911 Farrow Road  
Columbia, SC 29203  
Phone: (803) 896-4000

SCDHEC-Region 5  
Aiken EQC Office  
206 Beaufort St. N.E.  
Aiken, SC 29801  
Phone: (803) 641-7670

If there is interest in discussing this recommended remedial approach, a public hearing may be requested. Comments on the Statement of Basis/Proposed Plan should be sent to Mr. Paul Sauerborn. Comments on the draft RCRA permit modification or requests for a public hearing should be sent to Mr. Richard Haynes. For additional information or to request a public meeting contact:
